

To date as of November 20, 2020, we have one new Personal Care Home staff member and one new Nursing Facility staff member test positive for COVID-19 and we have not had three or more residents or staff with new onset of respiratory symptoms occurring within 72 hours of each other. The first round of COVID-19 testing of all Villa Angela at St. Anne Home staff and residents has been completed. A second round of testing will begin next week as per current state and federal guidance. The second round of COVID-19 testing of all nursing facility staff and residents has been completed and our third round will begin next week as well.

Therefore, cumulatively to date since March 2020 we have a total of:

| Classification of person: | Nursing Facility Staff | Personal Care Home Staff | Healthcare partners | Nursing Facility Residents | Personal Care Home Residents |
|---|------------------------|--------------------------|---------------------|----------------------------|------------------------------|
| Number that tested positive for COVID-19: | 8 | 9 | 1 | 6 | 12 |

We are taking necessary infection prevention and control measures to limit potential exposures which includes, but is not limited to, testing the residents and staff, creating cohorting zones and wearing appropriate Personal Protective Equipment as per the Pennsylvania Department of Health and Centers for Medicare and Medicaid Services guidance.
