To date as of November 25, 2020, we have one new Nursing Facility staff member test positive for COVID-19 and we have not had three or more residents or staff with new onset of respiratory symptoms occurring within 72 hours of each other. We will continue testing those residents and staff who have COVID-19 symptoms and test them all regardless of symptoms every 5 to 7 days so that we can quarantine those that are positive to reduce the spread of this virus.

Therefore, cumulatively to date since March 2020 we have a total of:

Classification of person:	Nursing Facility Staff	Personal Care Home Staff	Healthcare partners	Nursing Facility Residents	Personal Care Home Residents
Number that tested positive for COVID-19:	15	11	1	14	17

We continue to take the necessary infection prevention and control measures to limit potential exposures which includes, but is not limited to, testing the residents and staff, creating cohorting zones and wearing appropriate Personal Protective Equipment as per the Pennsylvania Department of Health and Centers for Medicare and Medicaid Services guidance.
