

For the December 19, 2020 COVID-19 positive test report, we have one new Healthcare partner staff member test positive for COVID-19 and we have not had three or more residents or staff with new onset of respiratory symptoms occurring within 72 hours of each other. Through contact tracing and a risk assessment for asymptomatic healthcare personnel it was determined that this Healthcare partner staff member did not have any prolonged close contact with any residents during their potential infectious period.

Therefore, cumulatively to date since March 2020 we have a total of:

Classification of person:	Nursing Facility Staff	Personal Care Home Staff	Healthcare partners	Nursing Facility Residents	Personal Care Home Residents
Number that tested positive for COVID-19:	28	15	2	24	29

We continue to take the necessary infection prevention and control measures to limit potential exposures which includes, but is not limited to, contact tracing, testing the residents and staff, creating cohorting zones and wearing appropriate Personal Protective Equipment as per the Pennsylvania Department of Health and Centers for Medicare and Medicaid Services guidance.
