

For the December 27, 2020 COVID-19 positive test report, we have two new Nursing Facility Staff members test positive for COVID-19 and we have not had three or more residents or staff with new onset of respiratory symptoms occurring within 72 hours of each other. Through contact tracing and a risk assessment for these two Nursing Facility Staff members it was determined that they did not have any prolonged close contact with any residents or staff during their potential infectious period.

Therefore, cumulatively to date since March 2020 we have a total of:

Classification of person:	Nursing Facility Staff	Personal Care Home Staff	Healthcare partners	Nursing Facility Residents	Personal Care Home Residents
Number that tested positive for COVID-19:	36	16	2	24	29

We continue to take the necessary infection prevention and control measures to limit potential exposures which includes, but is not limited to, contact tracing, testing the residents and staff, creating cohorting zones and wearing appropriate Personal Protective Equipment as per the Pennsylvania Department of Health and Centers for Medicare and Medicaid Services guidance. St. Anne Home has been scheduled to have an onsite COVID-19 vaccination clinic, conducted and scheduled through a collaboration with Walgreens and PharMerica Pharmacies, for residents and staff on clinic on January 5th, 6th and 7th, 2021.
