

For the January 13, 2021 COVID-19 positive test report, we have three new Nursing Facility Staff residents and one Nursing Facility Staff member test positive for COVID-19 and we have not had three or more residents or staff with new onset of respiratory symptoms occurring within 72 hours of each other. Through contact tracing and a risk assessment for this Nursing Facility Staff member it was determined that they did not have any prolonged close contact with any residents during their potential infectious period.

Therefore, cumulatively to date since March 2020 we have a total of:

Classification of person:	Nursing Facility Staff	Personal Care Home Staff	Healthcare partners	Nursing Facility Residents	Personal Care Home Residents
Number that tested positive for COVID-19:	57	16	3	47	29

We continue to take the necessary infection prevention and control measures to limit potential exposures which includes, but is not limited to, contact tracing, testing the residents and staff, creating cohorting zones and wearing appropriate Personal Protective Equipment as per the Pennsylvania Department of Health and Centers for Medicare and Medicaid Services guidance. On New Year's Eve, St. Anne Home with the assistance of two Walgreens Pharmacists had 102 residents and 3 staff members receive their first dose on the COVID-19 vaccine, an additional vaccination clinic occurred on January 5th, 2021 where many staff and Healthcare partners received their first of two doses of the COVID-19 vaccine. Our next vaccination clinic will be held on Friday, January 22, 2021. All Villa Angela residents will have the opportunity to get vaccinated with their first dose during this clinic. In addition, the next two scheduled dates of January 25th and 26th, 2021 are set primarily to administer the second dose of the COVID-19 vaccination for those who received their first dose on either December 30, 2020 or January 5, 2021.
